

# Supplier audit

Select the best supplier for your company and evaluate their capabilities before starting to work with him.

Supplier selection is essential to ensure quality, safety and reliability in overseas production. Whether you need to compare different potential suppliers or assess the capabilities and quality system of your selected supplier, independent audits will provide you reliable data for a better decision making.

## **Our solution:**

Applus+ Laboratories perform comprehensive supplier audits of manufacturing plants. Applus+ will assign a qualified auditor to verify any of the below points of your interest:

- Quality system
- Factory Production Control
- Manufacturing capacity
- Warehouse capacity
- Manpower
- Related suppliers or partners
- Testing capability facilities reliability

We could also include social compliance and health and safety requirements in the audit.

## **Benefits:**

- Solid reliable data from your potential partners or manufacturers.
- Identify potential weaknesses that can hinder your collaboration.
- Help you to better establish a realistic production plan.
